ALL-IN-ONE CRYPTO ECOSYSTEM,
THE NEXT TRACKING DASHBOARD GENERATION

WHITEPAPER

What is Meo.tools (MEO)?

Meo.tools is an all-in-one crypto ecosystem, the next tracking dashboard generation.

Currently, there are so many tools that supported the community for investing, trading... But, most of them have just supported Altcoin or a famous token.

We knew the rest is the small market but so many people need more than the features that are supported by the current tools on the internet.

That is why the team created this tool, which can support everyone who wants to jump into the crypto world.

Who is the founder of Meo.tools?

Meo.tools was founded by Tony Nguyen (Méo), a Vietnamese man. He is the man who has works in Information Technology specialized for 14 years.

He worked in many positions in the past like developer, designer, team leader, PM... and a CEO of a hosting company in Vietnam.

He got involved in cryptocurrencies back in 2021 and now is Founder - CEO of the company that built Meo.tools.

Roadmap

June 1, 2021
Platform Idea

Ideal and draft the tools

June 15, 2021
Implement the first version
of the tool

- Add tokens to Watchlist - Portfolio
- Create alerts for the tokens
- Get alert via browser notification
- Get alert via Telegram

June 27, 2021
Launch tools

Launch the first release on
meo.tools domain

July 13, 2021
Add more features to the tool

- Implement token chart feature
- Implement token trade history
- Connect to Ethereum and Polygon networks
- Implement top tokens by 24h volume board

August 1, 2021
Middle of Q3, 2021

- Develop and deploy smart contracts
- First Airdrops event
- Re-design website application
- Design website, white-paper, media for marketing
- Complete marketing plan
- Submit token to Coinmarketcap
- Open Private Sale
- Pre-Sale On DxSale
- Launch On Pancake Swap
- Submit token to Coingecko, DappRadar
- Logo On Web3 Wallets And Pancake Swap
- Tchrte Audit
- Marketing & Advertising Strategy

October 1, 2021
Q4 2021

- Expand team
- Apply new skin for the tool (v. 1.0.0)
- Tracking the price on the server-side
- Alert by step (0.5, 1, 5, 10...)
- Implement the new version for the tools
- Implement tier functions
- Implement trade features
- Implement other support tools

January 1, 2022
Q1 2022

- Extend more networks
- Implement Mobile app version
- Extend more products
